

## PRÉSENTATIONS – JÉRÉMIE DOIRON

### PRÉSENTATION ORALE

- Robichaud, P.— P., **Doiron, J.**, Gnabo, C., Surette, M. (2023) Inhibition of stearyl-CoA desaturase-1 decreases lymphocytic cell proliferation and increases the biosynthesis of n-10 and n-12 monounsaturated fatty acids. International Society for the Study of Fatty Acids and Lipids Congress, 2 - 5 July, Nantes, France.

### PRÉSENTATION PAR AFFICHE

- **Doiron, J.**, Beaugard, A.-P., Surette, M. E., Barnett, D. A., Girouard, G. (2025). Untargeted LC-MS of Lipid A for Predicting Polymyxin Resistance in Gram-Negative Bacteria. *Lake Louise Tandem MS Workshop*. 3 - 6 Dec, Lake Louise, AB.
- **Doiron, J.A.**, Métayer, B., Richard, R.R., Desjardins, D., Boudreau, L.H., et al. (2013). Structure-activity relationship study of clicked caffeic esters and amides as inhibitors of leukotriene biosynthesis. Chemistry and Biochemistry Graduate Research Conference, University of Concordia, Montreal, Qc., 22 November.
